VOLUME 79 • SUBJECT INDEX

- Aarskog syndrome**, Intelligence and development in Aarskog syndrome, 359
- abdominal tumours**, Preclinical diagnosis of abdominal tumours by ultrasound examination: *letter*, 379
- absorption**, Metabolic handling of C labelled tripalmitin in healthy controls and patients with cystic fibrosis, 44
- accident and emergency**, Developing injury surveillance systems in accident and emergency departments: *letter*, 379
- achondroplasia**, Distinct patterns of respiratory difficulty in young children with achondroplasia: a clinical, sleep, and lung function study, 99
- acute lymphoblastic leukaemia**, Height and weight pattern up to 20 years after treatment for acute lymphoblastic leukaemia, 161
- acute respiratory distress syndrome**, Incidence of acute respiratory distress syndrome: a comparison of two definitions, 256
Randomised trial of three doses of inhaled nitric oxide in acute respiratory distress syndrome, 415
- acylcarnitines**, Screening for medium chain acyl-CoA dehydrogenase deficiency using electrospray ionisation tandem mass spectrometry, 109
- admissions**, Medical and social factors associated with the admission and discharge of acutely ill children, 219
- adolescence**, Association of blood pressure in adolescence with birthweight, F114
- adult health**, Birthweight and blood pressure among children in Harare, Zimbabwe, F119
- adult height**, Outcome of premature thelarche: relation to puberty and final height, 173
- aerosol**, Randomised crossover trial of salbutamol aerosol delivered by metered dose inhaler, jet nebuliser, and ultrasonic nebuliser in chronic lung disease, F100
- Africa**, Birthweight and blood pressure among children in Harare, Zimbabwe, F119
- agammaglobulinaemia**, A case of X linked agammaglobulinaemia complicated with systemic amyloidosis: *letter*, 94
- aggressive behaviour**, Practical approaches to reduce the impact of bullying: *personal practice*, 528
- AIDS**, Endocarditis as the first presentation of AIDS in infancy, 179
- airway hyperreactivity**, A randomised, placebo controlled trial of inhaled salbutamol and beclomethasone for recurrent cough, 6
- Alagille's syndrome**, Who needs a liver transplant? (new disease specific indications): *personal practice*, 460
- albumin**, Albumin: saint or sinner?: *annotation*, 384
- allergy**, Infant feeding causes all cases of asthma, eczema, and hay fever. Or does it?: *annotation*, 97
- altitude**, Living at high altitude and risk of sudden infant death syndrome, 506
- American-European Consensus Conference**, Incidence of acute respiratory distress syndrome: a comparison of two definitions, 256
- aminophylline**, Randomised controlled trial of aminophylline for severe acute asthma, 405
- amyloidosis**, A case of X linked agammaglobulinaemia complicated with systemic amyloidosis: *letter*, 94
- anabolic steroids**, Turner's syndrome, anorexia nervosa, and anabolic steroids: *letter*, 94
- anaemia of prematurity**, Iron supplementation enhances response to high doses of recombinant human erythropoietin in preterm infants, F44
- analgesia**, Reflections on measuring pain in infants: dissociation in responsive systems and "honest signalling": *current topic*, F152
- Angelman syndrome**, Parental view of epilepsy in Angelman syndrome: a questionnaire study, 423
- angiotensin converting enzyme activity**, Deletion polymorphism of the angiotensin converting enzyme gene predicts persistent proteinuria in Henoch-Schönlein purpura nephritis, 394
- anismus**, Randomised controlled trial of biofeedback training in persistent encopresis with anismus, 131
- ankylosing spondylitis**, Molecular mimicry in autoimmune disease: *current topic*, 448
- anophthalmia**, Compiling a national register of babies born with anophthalmia/microphthalmia in England 1988-94, F168
- anorexia nervosa**, Turner's syndrome, anorexia nervosa, and anabolic steroids: *letter*, 94
- antenatal care**, Causes of preterm delivery and intrauterine growth retardation in a malaria endemic region of Papua New Guinea, F135
- anthropometry**, Weaning practice in the Glasgow longitudinal infant growth study, 153
- antibiotics**, Systematic review of the treatment of upper respiratory tract infection, 225
- antibody**, Production of antibodies to staphylococcal superantigens in atopic dermatitis, 400
- antibody transfer**, Placental antibody transfer: influence of maternal HIV infection and placental malaria, F202
- anticonvulsants**, Emergency treatment of acute seizures and status epilepticus: *current topic*, 78
- antineutrophil cytoplasmic antibodies**, Antineutrophil cytoplasmic antibodies in Wegener's granulomatosis, 246
- aorta**, Infant growth and aorta total lipid fatty acids, 28
- apnoea**, The divergent ventilatory and heart rate response to moderate hypercapnia in infants with apnoea of infancy, 231
- appropriateness**, Medical and social factors associated with the admission and discharge of acutely ill children, 219
- artificial neural network**, Artificial neural network for risk assessment in preterm neonates, F129
- asthma**, Cross sectional study of the relation between sibling number and asthma, hay fever, and eczema, 328
Persistent cough: is it asthma?, 411
Randomised controlled trial of aminophylline for severe acute asthma, 405
Treatment of acute asthmatic exacerbations with an increased dose of inhaled steroid, 12
- atopic dermatitis**, Linear growth in prepubertal children with atopic dermatitis, 169
Production of antibodies to staphylococcal superantigens in atopic dermatitis, 400
Side to side comparison of topical treatment in atopic dermatitis, 149
- atopy**, Cross sectional study of the relation between sibling number and asthma, hay fever, and eczema, 328
Infant feeding causes all cases of asthma, eczema, and hay fever. Or does it?: *annotation*, 97
Randomised controlled trial of brief neonatal exposure to cows' milk on the development of atopy, 126
- attention deficit hyperactivity disorder**, Attention deficit disorder with developmental coordination disorders, 207
Attention deficit hyperactivity disorder: *annotation*, 381
- audiological abnormalities**, Audiological abnormalities in the Klippel-Feil syndrome, 352
- audit**, An audit of paediatric epilepsy care, 145
- autoimmune disease**, Molecular mimicry in autoimmune disease: *current topic*, 448
- awards**, Awards for handicapped children, 516
- bacterial meningitis**, Fluid management of bacterial meningitis in developing countries: *current topic*, 181
- basal ganglia**, Long term outcome of brain manganese deposition in patients on home parenteral nutrition, 263
- behaviour**, Cognitive, educational, and behavioural outcomes at 7 to 8 years in a national very low birthweight cohort, F12
Intensive interventions to improve parenting: *personal practice*, 90
Outcome at 5-6 years of prematurely born children who received morphine as neonates, F40
- behavioural ventilation**, Randomised controlled trial of low dose fentanyl infusion in preterm infants with hyaline membrane disease, F194
- benzodiazepines**, Emergency treatment of acute seizures and status epilepticus: *current topic*, 78
- biliary atresia**, Who needs a liver transplant? (new disease specific indications): *personal practice*, 460
- biofeedback**, Randomised controlled trial of biofeedback training in persistent encopresis with anismus, 131
- birthweight**, Association of blood pressure in adolescence with birthweight, F114
- Blalock-Taussig shunt**, Complications of modified Blalock-Taussig shunts mimicking pulmonary disease, 361
- blood pressure**, Association of blood pressure in adolescence with birthweight, F114
Birthweight and blood pressure among children in Harare, Zimbabwe, F119
- blood spots**, Screening for medium chain acyl-CoA dehydrogenase deficiency using electrospray ionisation tandem mass spectrometry, 109
- body mass index standard deviation score**, Height and weight pattern up to 20 years after treatment for acute lymphoblastic leukaemia, 161
- Bokaal study**, Randomised controlled trial of brief neonatal exposure to cows' milk on the development of atopy, 126
- bolus feeding**, Effect of feed interval and feed type on splanchnic haemodynamics, F49
- bone marrow transplantation**, X linked lymphoproliferative disease in a United Kingdom family, 52
- botulinum toxin**, Position paper on the use of botulinum toxin in cerebral palsy: *current topic*, 271
- breast feeding**, A new mixed micellar preparation for oral vitamin K prophylaxis: randomised controlled comparison with an intramuscular formulation in breast fed infants, 300

- Infant feeding causes all cases of asthma, eczema, and hay fever. Or does it?: *annotation*, 97
- Randomised controlled trial of brief neonatal exposure to cows' milk on the development of atopy, 126
- breath pentane**, Breath pentane as a marker for lipid peroxidation and adverse outcome in preterm infants, F67
- breathing**, Distinct patterns of respiratory difficulty in young children with achondroplasia: a clinical, sleep, and lung function study, 99
- bronchodilator**, A randomised, placebo controlled trial of inhaled salbutamol and beclomethasone for recurrent cough, 6
- bullying**, Practical approaches to reduce the impact of bullying: *personal practice*, 528
- caeruloplasmin isoforms**, Caeruloplasmin isoforms in Wilson's disease in neonates, F198
- caffeine**, Heavy caffeine consumption in pregnancy, smoking, and sudden infant death syndrome: *letter*, 291
- carbohydrate malabsorption**, Toddler diarrhoea: more a nutritional disorder than a disease: *annotation*, 2
- central nervous system tumours**, Lower urinary tract dysfunction in children with central nervous system tumours, 344
- central precocious puberty**, Efficacy of Zoladex LA (goserelin) in the treatment of girls with central precocious or early puberty, 323
- cerebral artery**, Circulatory changes induced by isovolumic increase in red cell mass in fetal lambs, F180
- cerebral damage**, Brain imaging in neonatal hypoglycaemia, F145
- cerebral haemodynamics**, Cerebral haemodynamics in preterm infants after exposure to dexamethasone, F123
- cerebral palsy**, Epidemiology of cerebral palsy in England and Scotland, 1984-9, F21
- Maternal hypertension and neurodevelopmental outcome in very preterm infants, F88
- Position paper on the use of botulinum toxin in cerebral palsy: *current topic*, 271
- chemotherapy**, Height and weight pattern up to 20 years after treatment for acute lymphoblastic leukaemia, 161
- child abuse**, Pretrial liaison between doctors in alleged child abuse: *annotation*, 205
- chromosome 22q11 deletion**, A population study of chromosome 22q11 deletions in infancy, 348
- chronic anticoagulation**, Primary pulmonary hypertension in childhood: *current topic*, 452
- chronic fatigue syndrome**, Chronic fatigue syndrome: *current topic*, 363
- How I manage chronic fatigue syndrome: *current topic*, 375
- chronic glomerulonephritis**, Deletion polymorphism of the angiotensin converting enzyme gene predicts persistent proteinuria in Henoch-Schönlein purpura nephritis, 394
- chronic illness**, Does illness experience influence the recall of medical information?, 514
- chronic lung disease**, Systematic review and meta-analysis of early postnatal dexamethasone for prevention of chronic lung disease, F26
- cirrhosis**, Who needs a liver transplant? (new disease specific indications): *personal practice*, 460
- cisapride**, Randomised controlled trial of cisapride in feed intolerance in preterm infants, F110
- The risks and benefits of cisapride in premature neonates, infants, and children: *annotation*, 469
- closed spina bifida**, Bladder dysfunction and neurological disability at presentation in closed spina bifida, 33
- Cochrane Collaboration**, A review of randomised controlled trials published in *Archives of Disease in Childhood* from 1982-96, 192
- coeliac disease**, Incidence of coeliac disease: *letter*, 198
- Molecular mimicry in autoimmune disease: *current topic*, 448
- cognitive ability**, Cognitive, educational, and behavioural outcomes at 7 to 8 years in a national very low birthweight cohort, F12
- colonic wall thickness**, Colonic wall thickness, pancreatic enzyme dose and type of preparation in cystic fibrosis, 339
- coma scale**, Assessment of the grimace component of a coma scale: *letter*, 532
- complications**, Complications of varicella in a defined central European population, 472
- computed tomography**, Brain imaging in neonatal hypoglycaemia, F145
- confined placental mosaicism**, Confined placental mosaicism and intrauterine fetal growth: *current topic*, F223
- congenital diaphragmatic hernia**, Management of congenital diaphragmatic hernia: *annotation*, F1
- congenital hearing impairment**, Screening for congenital hearing impairment: time for a change: *current topic*, F73
- congenital heart disease**, A population study of chromosome 22q11 deletions in infancy, 348
- Complications of modified Blalock-Taussig shunts mimicking pulmonary disease, 361
- congenital malformation**, Compiling a national register of babies born with anophthalmia/microphthalmia in England 1988-94, F168
- constipation**, Rectal biopsy in the investigation of constipation, 266
- copper excretion**, Caeruloplasmin isoforms in Wilson's disease in neonates, F198
- corticosteroids**, Prophylactic vs rescue surfactant and antenatal corticosteroids: *letter*, F79
- Side to side comparison of topical treatment in atopic dermatitis, 149
- cost effectiveness**, Costing model for neonatal screening and diagnosis of haemoglobinopathies, F161
- cough**, A randomised, placebo controlled trial of inhaled salbutamol and beclomethasone for recurrent cough, 6
- Cough, wheeze and sleep: *letter*, 465
- cows' milk**, Infant feeding causes all cases of asthma, eczema, and hay fever. Or does it?: *annotation*, 97
- Randomised controlled trial of brief neonatal exposure to cows' milk on the development of atopy, 126
- Weaning practice in the Glasgow longitudinal infant growth study, 153
- cranial ultrasound**, Incidence of cranial ultrasound abnormalities in apparently well neonates on a postnatal ward: correlation with antenatal and perinatal factors and neurological status, F185
- crying**, Randomised controlled trial of sucrose by mouth for the relief of infant crying after immunisation: *letter*, 465
- Randomised controlled trial of sucrose by mouth for the relief of infant crying by immunisation: *letter*, 466
- cystic fibrosis**, Inferences for health provision from survival data in cystic fibrosis: *annotation*, 297
- Colonic wall thickness, pancreatic enzyme dose and type of preparation in cystic fibrosis, 339
- Metabolic handling of C labelled tripalmitin in healthy controls and patients with cystic fibrosis, 44
- cytokine**, Predictive value of plasma and cerebrospinal fluid tumour necrosis factor- α and interleukin-1 β concentrations on outcome of full term infants with hypoxic-ischaemic encephalopathy, F190
- data logging device**, Arterial oxygen saturation profiles in healthy preterm infants, F64
- decortication**, Empyema thoracis: a role for open thoracotomy and decortication, 510
- dehydration**, Serum bicarbonate and the severity of dehydration in gastroenteritis: *letter*, 379
- developmental benefit**, Randomised trial of parental support for families with very preterm children, F4
- developmental coordination disorder**, Attention deficit disorder with developmental coordination disorders, 207
- dexamethasone**, Cerebral haemodynamics in preterm infants after exposure to dexamethasone, F123
- Systematic review and meta-analysis of early postnatal dexamethasone for prevention of chronic lung disease, F26
- diabetes**, Down's syndrome in infants of diabetic mothers: *letter*, 199
- Neurobehaviour of school age children born to diabetic mothers, F94
- diabetes insipidus**, Diabetes insipidus: *current topic*, 84
- Hypertonic saline test for the investigation of posterior pituitary function, 431
- diabetes mellitus**, Molecular mimicry in autoimmune disease: *current topic*, 448
- Social disadvantage, family composition, and diabetes mellitus: prevalence and outcome, 427
- diabetic pregnancy**, Long term neurological dysfunction and neonatal hypoglycaemia after diabetic pregnancy, F174
- diarrhoea**, Guidelines for managing acute gastroenteritis based on a systematic review of published research: *review*, 279
- Management of acute diarrhoea with low osmolality oral rehydration solutions and *Lactobacillus* strain GG, 157
- Toddler diarrhoea: more a nutritional disorder than a disease: *annotation*, 2
- diazoxide treatment**, Long term follow up of persistent hyperinsulinaemic hypoglycaemia of infancy, 440
- diphtheria-tetanus vaccine**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
- disability**, Epidemiology of cerebral palsy in England and Scotland, 1984-9, F21
- Outcome of very preterm birth: children reviewed with ease at 2 years differ from those followed up with difficulty, F83
- disorders of water balance**, Hypertonic saline test for the investigation of posterior pituitary function, 431
- district general hospitals**, Where should paediatric surgery be performed?: *controversy*, 65
- Doppler ultrasound**, Effect of feed interval and feed type on splanchnic haemodynamics, F49
- Suprasternal Doppler ultrasound for assessment of stroke distance, 251
- Down's syndrome**, Down's syndrome in infants of diabetic mothers: *letter*, 199
- Thyroid dysfunction in Down's syndrome: relation to age and thyroid autoimmunity, 242
- duodenal ulcer**, Effect of *Helicobacter pylori* eradication on the natural history of duodenal ulcer disease, 502
- early menarche**, Outcome of premature menarche: relation to puberty and final height, 173
- early onset group B streptococcal infection**, Early onset group B streptococcal neonatal infection in Oxford 1985-96, F148

- Prevention of early onset group B streptococcal infection: screen, treat, or observe?: *annotation*, F81
- eczema**, Neonatal erythroderma: differential diagnosis and management of the "red baby": *current topic*, 186
- education**, An analysis of the new educational demands in paediatric postgraduate training: *medical education*, 456
- Maximising the effectiveness of undergraduate teaching in the clinical setting: *medical education*, 365
- electromyography**, Randomised controlled trial of biofeedback training in persistent encopresis with anismus, 131
- emergency admissions**, Medical and social factors associated with the admission and discharge of acutely ill children, 219
- Parental and professional perception of need for emergency admission to hospital: prospective questionnaire based study, 213
- emergency treatment**, Emergency treatment of acute seizures and status epilepticus: *current topic*, 78
- empyema**, Empyema thoracis: a role for open thoracotomy and decortication, 510
- encephalopathy**, Hyperammonaemic encephalopathy after a subureteric injection for vesicoureteric reflux, 363
- encopresis**, Randomised controlled trial of biofeedback training in persistent encopresis with anismus, 131
- endocarditis**, Endocarditis as the first presentation of AIDS in infancy, 179
- England**, Epidemiology of cerebral palsy in England and Scotland, 1984-9, F21
- enteral feeding**, Randomised controlled trial of cisapride in feed intolerance in preterm infants, F110
- epidemiological reassessment**, Seasonality of sudden infant death syndrome in mainland Britain and Ireland 1985-95, 269
- epidemiology**, Child health statistics review, 1998: *review*, 523
- Compiling a national register of babies born with anophthalmia/microphthalmia in England 1988-94, F168
- Complications of varicella in a defined central European population, 472
- Cross sectional study of the relation between sibling number and asthma, hay fever, and eczema, 328
- epilepsy**, An audit of paediatric epilepsy care, 145
- Neuroimaging and spectroscopy in children with epileptic encephalopathies, 39
- Parental view of epilepsy in Angelman syndrome: a questionnaire study, 423
- Status epilepticus: pathophysiology, epidemiology, and outcomes: *current topic*, 73
- Epstein-Barr virus**, X linked lymphoproliferative disease in a United Kingdom family, 52
- erythroderma**, Neonatal erythroderma: differential diagnosis and management of the "red baby": *current topic*, 186
- erythromycin**, Influence of erythromycin on establishment of feeding in preterm infants: observations from a randomised controlled trial, F212
- erythropoietin**, Iron supplementation enhances response to high doses of recombinant human erythropoietin in preterm infants, F44
- ethambutol**, Ethambutol in tuberculosis: time to reconsider?: *current topic*, 274
- ethics**, Withdrawing and withholding treatment: comments on new guidelines: *annotation*, 1
- ethnic origin**, Mothers' reports of infant crying and soothing in a multicultural population, 312
- evidence-based medicine**, Inferences for health provision from survival data in cystic fibrosis: *annotation*, 297
- A review of randomised controlled trials published in *Archives of Disease in Childhood* from 1982-96, 192
- Who needs a liver transplant? (new disease specific indications): *personal practice*, 460
- extubation**, Randomised, controlled trial of nasal continuous positive airway pressure in the extubation of infants weighing 600 to 1250g, F54
- Randomised trial of elective continuous positive airway pressure (CPAP) compared with rescue CPAP after extubation, F58
- family structure**, Social disadvantage, family composition, and diabetes mellitus: prevalence and outcome, 427
- family support**, Randomised trial of parental support for families with very preterm children, F4
- fatty acid oxidation**, Screening for medium chain acyl-CoA dehydrogenase deficiency using electrospray ionisation tandem mass spectrometry, 109
- fatty acids**, Infant growth and aorta total lipid fatty acids, 28
- Metabolic handling of C labelled tripalmitin in healthy controls and patients with cystic fibrosis, 44
- febrile convulsions**, Informed consent, parental awareness, and reasons for participating in a randomised controlled study, 120
- feed intolerance**, Randomised controlled trial of cisapride in feed intolerance in preterm infants, F110
- fentanyl**, Randomised controlled trial of low dose fentanyl infusion in preterm infants with hyaline membrane disease, F194
- flow driver continuous positive airway pressure**, Randomised trial of elective continuous positive airway pressure (CPAP) compared with rescue CPAP after extubation, F58
- fluid management**, Fluid management of bacterial meningitis in developing countries: *current topic*, 181
- formula diet**, Infant growth and aorta total lipid fatty acids, 28
- G-6-PD**, Effect of vitamin K1 on glucose-6-phosphate dehydrogenase deficient neonatal erythrocytes in vitro, F218
- gastroenteritis**, Guidelines for managing acute gastroenteritis based on a systematic review of published research: *review*, 279
- Serum bicarbonate and the severity of dehydration in gastroenteritis: *letter*, 379
- genetics**, Intelligence and development in Aarskog syndrome, 359
- gonadotrophin releasing hormone analogue treatment**, Efficacy of Zoladex LA (goserelin) in the treatment of girls with central precocious or early puberty, 323
- group B streptococcal infection**, Early onset group B streptococcal neonatal infection in Oxford 1985-96, F148
- growth**, Infant growth and aorta total lipid fatty acids, 28
- Randomised controlled trial of recombinant human growth hormone in prepubertal and pubertal renal transplant recipients, 481
- Vitamin D receptor alleles predict growth and bone density in girls, 488
- growth arrest lines**, Metaphyseal growth arrest lines in psychosocial short stature, 260
- growth hormone**, Metacarpal index in short stature before and during growth hormone treatment, 165
- growth monitoring**, Growth monitoring: testing the new guidelines, 318
- growth rate**, Growth monitoring: testing the new guidelines, 318
- guidelines**, Withdrawing and withholding treatment: comments on new guidelines: *annotation*, 1
- haematocrit**, Circulatory changes induced by isovolumic increase in red cell mass in fetal lambs, F180
- haemoglobinopathies**, Costing model for neonatal screening and diagnosis of haemoglobinopathies, F161
- haemolysis**, Effect of vitamin K1 on glucose-6-phosphate dehydrogenase deficient neonatal erythrocytes in vitro, F218
- haemorrhagic disease**, A new mixed micellar preparation for oral vitamin K prophylaxis: randomised controlled comparison with an intramuscular formulation in breast fed infants, 300
- handicapped children**, Awards for handicapped children, 516
- hay fever**, Cross sectional study of the relation between sibling number and asthma, hay fever, and eczema, 328
- head growth**, Long term follow up of persistent hyperinsulinaemic hypoglycaemia of infancy, 440
- health economics**, Parental and professional perception of need for emergency admission to hospital: prospective questionnaire based study, 213
- health promotion**, Randomised controlled trial of the use of a modified postal reminder card on the uptake of measles vaccination, 136
- health provision**, Inferences for health provision from survival data in cystic fibrosis: *annotation*, 297
- health services**, Clinical services for sleep disorders, 495
- heart rate**, The divergent ventilatory and heart rate response to moderate hypercapnia in infants with apnoea of infancy, 231
- heel prick**, Randomised controlled trial of paracetamol for heel prick pain in neonates, F209
- height**, Growth monitoring: testing the new guidelines, 318
- Oestrogen treatment of tall stature: *letter*, 199
- height standard deviation score**, Height and weight pattern up to 20 years after treatment for acute lymphoblastic leukaemia, 161
- height velocity**, Efficacy of Zoladex LA (goserelin) in the treatment of girls with central precocious or early puberty, 323
- Linear growth in prepubertal children with atopic dermatitis, 169
- Helicobacter pylori**, Effect of *Helicobacter pylori* eradication on the natural history of duodenal ulcer disease, 502
- Henoch-Schönlein purpura nephritis**, Deletion polymorphism of the angiotensin converting enzyme gene predicts persistent proteinuria in Henoch-Schönlein purpura nephritis, 394
- hepatitis B vaccine**, Immunogenicity of hepatitis B vaccine in preterm infants, F206
- Hirschsprung's disease**, Rectal biopsy in the investigation of constipation, 266
- HIV**, Endocarditis as the first presentation of AIDS in infancy, 179
- Growth in the first two years of uninfected children born to HIV-1 seropositive mothers, 175
- Placental antibody transfer: influence of maternal HIV infection and placental malaria, F202
- home based developmental education programme**, Randomised trial of parental support for families with very preterm children, F4
- Hunter's disease**, Mutation analysis in 57 unrelated patients with MPS II (Hunter's disease), 237
- hyaline membrane disease**, Randomised controlled trial of low dose fentanyl infusion in preterm infants with hyaline membrane disease, F194
- hyperaemia**, Effect of feed interval and feed type on splanchnic haemodynamics, F49
- hyperammonaemia**, Hyperammonaemic encephalopathy after a subureteric injection for vesicoureteric reflux, 363

- hypercapnia**, The divergent ventilatory and heart rate response to moderate hypercapnia in infants with apnoea of infancy, 231
- hyperinsulinism**, Hyperinsulinism: molecular aetiology of focal disease, 445
- hyperthyroidism**, Thyroid dysfunction in Down's syndrome: relation to age and thyroid autoimmunity, 242
- hypertonic saline test**, Hypertonic saline test for the investigation of posterior pituitary function, 431
- hypoglycaemia**, Adverse neonatal effects of maternal labetalol treatment, F150
Brain imaging in neonatal hypoglycaemia, F145
Long term neurological dysfunction and neonatal hypoglycaemia after diabetic pregnancy, F174
Screening for medium chain acyl-CoA dehydrogenase deficiency using electrospray ionisation tandem mass spectrometry, 109
- hypotension**, Adverse neonatal effects of maternal labetalol treatment, F150
Randomised double blind trial of morphine *versus* diamorphine for sedation of preterm neonates, F34
- hypothyroidism**, Factors involved in the rate of fall of thyroid stimulating hormone in treated hypothyroidism: *letter*, 200
Thyroid dysfunction in Down's syndrome: relation to age and thyroid autoimmunity, 242
- hypovolaemia**, Albumin: saint or sinner?: *annotation*, 384
- hypoxic-ischaemic encephalopathy**, Predictive value of plasma and cerebrospinal fluid tumour necrosis factor- α and interleukin-1 β concentrations on outcome of full term infants with hypoxic-ischaemic encephalopathy, F190
- ibuprofen**, Informed consent, parental awareness, and reasons for participating in a randomised controlled study, 120
- ichthyoses**, Neonatal erythroderma: differential diagnosis and management of the "red baby": *current topic*, 186
- idiopathic respiratory distress syndrome**, Nasal high frequency ventilation in neonates with moderate respiratory insufficiency, F61
- IgA nephropathy**, Deletion polymorphism of the angiotensin converting enzyme gene predicts persistent proteinuria in Henoch-Schönlein purpura nephritis, 394
- immune response**, Immunogenicity of hepatitis B vaccine in preterm infants, F206
- immunisation**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
Randomised controlled trial of sucrose by mouth for the relief of infant crying after immunisation: *letter*, 465
Randomised controlled trial of sucrose by mouth for the relief of infant crying by immunisation: *letter*, 466
- immunodeficiency**, Immunoglobulin replacement treatment by rapid subcutaneous infusion, 48
- immunoglobulin**, Immunoglobulin replacement treatment by rapid subcutaneous infusion, 48
- immunology**, A case of X linked agammaglobulinaemia complicated with systemic amyloidosis: *letter*, 94
- impalpable testis**, Management of the impalpable testis: the role of laparoscopy, 419
- in vitro cell studies**, Histochemical, clinical, and in vitro β cell responses in a neonate with persistent hyperinsulinaemic hypoglycaemia of infancy, F141
- inborn errors of metabolism**, Raised cerebrospinal fluid glycerol concentration associated with use of dichloroacetate: *letter*, 290
- infant crying**, Mothers' reports of infant crying and soothing in a multicultural population, 312
- infant growth**, Growth in the first two years of uninfected children born to HIV-1 seropositive mothers, 175
- informed consent**, Informed consent, parental awareness, and reasons for participating in a randomised controlled study, 120
- inhaled nitric oxide**, Randomised trial of three doses of inhaled nitric oxide in acute respiratory distress syndrome, 415
- inhaled steroids**, Treatment of acute asthmatic exacerbations with an increased dose of inhaled steroid, 12
- injury**, Developing injury surveillance systems in accident and emergency departments: *letter*, 379
- insulin administration**, Accuracy and reproducibility of low dose insulin administration using pen-injectors and syringes, 59
- insulin syringes**, Accuracy and reproducibility of low dose insulin administration using pen-injectors and syringes, 59
- intelligence**, Intelligence and development in Aarskog syndrome, 359
Outcome at 5-6 years of prematurely born children who received morphine as neonates, F40
- interleukin-1 β** , Predictive value of plasma and cerebrospinal fluid tumour necrosis factor- α and interleukin-1 β concentrations on outcome of full term infants with hypoxic-ischaemic encephalopathy, F190
- intrauterine fetal growth**, Confined placental mosaicism and intrauterine fetal growth: *current topic*, F223
- intrauterine growth indices**, Birthweight and blood pressure among children in Harare, Zimbabwe, F119
- intrauterine growth retardation**, Causes of preterm delivery and intrauterine growth retardation in a malaria endemic region of Papua New Guinea, F135
- iodine**, Neonatal transient hypothyroidism: aetiological study, F70
- iron supplementation**, Iron supplementation enhances response to high doses of recombinant human erythropoietin in preterm infants, F44
- ischaemic lesions**, Incidence of cranial ultrasound abnormalities in apparently well neonates on a postnatal ward: correlation with antenatal and perinatal factors and neurological status, F185
- jet nebuliser**, Randomised crossover trial of salbutamol aerosol delivered by metered dose inhaler, jet nebuliser, and ultrasonic nebuliser in chronic lung disease, F100
- Kawasaki disease**, Neurological complications of Kawasaki disease: *letter*, 200
- Klippel-Feil syndrome**, Audiological abnormalities in the Klippel-Feil syndrome, 352
- labetalol**, Adverse neonatal effects of maternal labetalol treatment, F150
- Lactobacillus GG**, Management of acute diarrhoea with low osmolality oral rehydration solutions and *Lactobacillus* strain GG, 157
- language**, Attention deficit disorder with developmental coordination disorders, 207
- laparoscopy**, Management of the impalpable testis: the role of laparoscopy, 419
- law**, Pretrial liaison between doctors in alleged child abuse: *annotation*, 205
- learning disability**, Melatonin treatment in an institutionalised child with psychomotor retardation and an irregular sleep-wake pattern, 63
- legislation**, Transition from school to adult life for physically disabled young people, 306
- Leigh's syndrome**, Clinical and laboratory findings in referrals for mitochondrial DNA analysis, 22
- Lennox-Gastaut syndrome**, Neuroimaging and spectroscopy in children with epileptic encephalopathies, 39
- leukaemia**, Trisomy 21 associated transient neonatal myeloproliferation in the absence of Down's syndrome, F215
- lifespan**, Inferences for health provision from survival data in cystic fibrosis: *annotation*, 297
- linear growth**, Linear growth in prepubertal children with atopic dermatitis, 169
Metacarpal index in short stature before and during growth hormone treatment, 165
Metaphyseal growth arrest lines in psychosocial short stature, 260
- lipid peroxidation**, Breath pentane as a marker for lipid peroxidation and adverse outcome in preterm infants, F67
- liver transplantation**, Who needs a liver transplant? (new disease specific indications): *personal practice*, 460
- long term follow up**, Long term follow up of 69 patients treated for optic pathway tumours before the chemotherapy era, 334
- low dose insulin**, Accuracy and reproducibility of low dose insulin administration using pen-injectors and syringes, 59
- lung development**, Prediction of lung function in the inadequately nourished, 18
- lung function**, Prediction of lung function in the inadequately nourished, 18
- lung hypoplasia**, Immaturity related lung hypoplasia: comment on current classification in neonatal death statistics: *letter*, F159
- lung injury score**, Incidence of acute respiratory distress syndrome: a comparison of two definitions, 256
- magnetic resonance imaging**, Brain imaging in neonatal hypoglycaemia, F145
Long term outcome of brain manganese deposition in patients on home parenteral nutrition, 263
- magnetic resonance spectroscopy**, Neuroimaging and spectroscopy in children with epileptic encephalopathies, 39
- malaria**, Causes of preterm delivery and intrauterine growth retardation in a malaria endemic region of Papua New Guinea, F135
Placental antibody transfer: influence of maternal HIV infection and placental malaria, F202
- manganese**, Long term outcome of brain manganese deposition in patients on home parenteral nutrition, 263
- masculinism**, Men need masculinism: *letter*, 465
- maternal HIV infection**, Growth in the first two years of uninfected children born to HIV-1 seropositive mothers, 175
- maternal hypertension**, Maternal hypertension and neurodevelopmental outcome in very preterm infants, F88
- measles vaccination**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
Randomised controlled trial of the use of a modified postal reminder card on the uptake of measles vaccination, 136
- measurement error**, Suprasternal Doppler ultrasound for assessment of stroke distance, 251
- meat products**, Nitrate and nitrite content of meat products: *letter*, 198
- medicolegal**, Awards for handicapped children, 516
- medium chain acyl-CoA dehydrogenase deficiency**, Prospective surveillance study of medium chain acyl-CoA dehydrogenase deficiency in the UK, 116

- melatonin**, Melatonin treatment in an institutionalised child with psychomotor retardation and an irregular sleep-wake pattern, 63
- memory**, Does illness experience influence the recall of medical information?, 514
- meningitis**, Fluid management of bacterial meningitis in developing countries: *current topic*, 181
- meta-analysis**, Systematic review and meta-analysis of early postnatal dexamethasone for prevention of chronic lung disease, F26
Systematic review of the treatment of upper respiratory tract infection, 225
- metabolism**, Metabolic handling of C labelled tripalmitin in healthy controls and patients with cystic fibrosis, 44
- metacarpal index**, Metacarpal index in short stature before and during growth hormone treatment, 165
- metered dose inhaler**, Randomised crossover trial of salbutamol aerosol delivered by metered dose inhaler, jet nebuliser, and ultrasonic nebuliser in chronic lung disease, F100
- methaemoglobin**, Effect of vitamin K1 on glucose-6-phosphate dehydrogenase deficient neonatal erythrocytes in vitro, F218
- microphthalmia**, Compiling a national register of babies born with anophthalmia/microphthalmia in England 1988-94, F168
- midparental height**, Outcome of premature thelarche: relation to puberty and final height, 173
- mitochondrial cytopathy**, Clinical and laboratory findings in referrals for mitochondrial DNA analysis, 22
- mitochondrial DNA mutation**, Clinical and laboratory findings in referrals for mitochondrial DNA analysis, 22
- molecular mimicry**, Molecular mimicry in autoimmune disease: *current topic*, 448
- morphine**, Outcome at 5-6 years of prematurely born children who received morphine as neonates, F40
- mortality**, Artificial neural network for risk assessment in preterm neonates, F129
Early onset group B streptococcal neonatal infection in Oxford 1985-96, F148
- motilin**, Influence of erythromycin on establishment of feeding in preterm infants: observations from a randomised controlled trial, F212
- motility**, Influence of erythromycin on establishment of feeding in preterm infants: observations from a randomised controlled trial, F212
- motor control and perception**, Attention deficit disorder with developmental coordination disorders, 207
- motor function**, Outcome at 5-6 years of prematurely born children who received morphine as neonates, F40
- MPS II**, Mutation analysis in 57 unrelated patients with MPS II (Hunter's disease), 237
- mumps**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
- Munchausen syndrome by proxy**, Munchausen syndrome by proxy abuse perpetrated by men: *letter*, 466
- mutation analysis**, Hyperinsulinism: molecular aetiology of focal disease, 445
Mutation analysis in 57 unrelated patients with MPS II (Hunter's disease), 237
- myalgic encephalomyelitis**, Chronic fatigue syndrome: *current topic*, 368
- nasal continuous positive airway pressure**, Randomised, controlled trial of nasal continuous positive airway pressure in the extubation of infants weighing 600 to 1250 g, F54
- nasal high frequency ventilation**, Nasal high frequency ventilation in neonates with moderate respiratory insufficiency, F61
- near infrared spectroscopy**, Cerebral haemodynamics in preterm infants after exposure to dexamethasone, F123
- necrotising enterocolitis**, Double blind, randomised, placebo controlled study of oral vancomycin in prevention of necrotising enterocolitis in preterm, very low birthweight infants, F105
- negative immunohistochemistry**, Histochemical, clinical, and in vitro β cell responses in a neonate with persistent hyperinsulinaemic hypoglycaemia of infancy, F141
- negative pressure ventilation**, The role of negative pressure ventilation: *letter*, 94
- nesidioblastosis**, Pancreatic exocrine and endocrine function after pancreatectomy for persistent hyperinsulinaemic hypoglycaemia of infancy, 435
- Netherton's syndrome**, Neonatal erythroderma: differential diagnosis and management of the "red baby": *current topic*, 186
- neurodevelopment**, Maternal hypertension and neurodevelopmental outcome in very preterm infants, F88
- neurofibromatosis type 1**, Long term follow up of 69 patients treated for optic pathway tumours before the chemotherapy era, 334
- neurological abnormalities**, Incidence of cranial ultrasound abnormalities in apparently well neonates on a postnatal ward: correlation with antenatal and perinatal factors and neurological status, F185
- neurological complications**, Neurological complications of Kawasaki disease: *letter*, 200
- neurological development**, Long term neurological dysfunction and neonatal hypoglycaemia after diabetic pregnancy, F174
- neurological functions**, Neurobehaviour of school age children born to diabetic mothers, F94
- neuropathic bladder dysfunction**, Bladder dysfunction and neurological disability at presentation in closed spina bifida, 33
- New Zealand cot death study**, "Cot death" rates on different days of the week: *letter*, 198
- Nikolsky sign scalded skin syndrome**, The Nikolsky sign in staphylococcal scalded skin syndrome: *letter*, 290
- nitrate**, Nitrate and nitrite content of meat products: *letter*, 198
Relation between plasma nitrate and mean pulmonary arterial pressure in ventricular septal defect, 498
- nitric oxide**, Relation between plasma nitrate and mean pulmonary arterial pressure in ventricular septal defect, 498
- nitrites**, Nitrate and nitrite content of meat products: *letter*, 198
- nutrition**, Prediction of lung function in the inadequately nourished, 18
The vitamin K debacle: cut the Gordian knot but first do no harm: *annotation*, 295
Toddler diarrhoea: more a nutritional disorder than a disease: *annotation*, 2
Weaning practice in the Glasgow longitudinal infant growth study, 153
- oestrogen treatment**, Oestrogen treatment of tall stature: *letter*, 199
- oncology**, Lower urinary tract dysfunction in children with central nervous system tumours, 344
- opiates**, Randomised double blind trial of morphine *versus* diamorphine for sedation of preterm neonates, F34
- optic pathway tumours**, Long term follow up of 69 patients treated for optic pathway tumours before the chemotherapy era, 334
- oral rehydration**, Management of acute diarrhoea with low osmolality oral rehydration solutions and *Lactobacillus* strain GG, 157
- orchidopexy**, Management of the impalpable testis: the role of laparoscopy, 419
- osseous proportions**, Metacarpal index in short stature before and during growth hormone treatment, 165
- oxygen derived free radicals**, Breath pentane as a marker for lipid peroxidation and adverse outcome in preterm infants, F67
- oxygen saturation**, Arterial oxygen saturation profiles in healthy preterm infants, F64
- oxygenation**, Randomised trial of three doses of inhaled nitric oxide in acute respiratory distress syndrome, 415
- paediatric cardiology**, Positron emission tomography in paediatric cardiology: *current topic*, 520
- pain management**, Randomised controlled trial of paracetamol for heel prick pain in neonates, F209
Reflections on measuring pain in infants: dissociation in responsive systems and "honest signalling": *current topic*, F152
- pancreatic enzyme**, Colonic wall thickness, pancreatic enzyme dose and type of preparation in cystic fibrosis, 339
- pancreatic function**, Pancreatic exocrine and endocrine function after pancreatectomy for persistent hyperinsulinaemic hypoglycaemia of infancy, 435
- Papua New Guinea**, Causes of preterm delivery and intrauterine growth retardation in a malaria endemic region of Papua New Guinea, F135
- paracetamol**, Randomised controlled trial of paracetamol for heel prick pain in neonates, F209
- parental views**, Parental and professional perception of need for emergency admission to hospital: prospective questionnaire based study, 213
Parental view of epilepsy in Angelman syndrome: a questionnaire study, 423
- parenteral nutrition**, Long term outcome of brain manganese deposition in patients on home parenteral nutrition, 263
- parenting**, Intensive interventions to improve parenting: *personal practice*, 90
- patient acceptance of health care**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
- pen-injector device**, Accuracy and reproducibility of low dose insulin administration using pen-injectors and syringes, 59
- perinatal distress**, Incidence of cranial ultrasound abnormalities in apparently well neonates on a postnatal ward: correlation with antenatal and perinatal factors and neurological status, F185
- perinatal factors**, Attention deficit disorder with developmental coordination disorders, 207
- perinatal lessons from the past**
Eucharius Rösslin (c 1470-1526) of Germany and the rebirth of midwifery: *perinatal lesson*, F77
Henrick van Deventer (1651-1724) and the pelvic birth canal: *perinatal lesson*, F157
Maimonides (1135-1204) and his philosophy of medicine: *perinatal lesson*, F227
- persistent cough**, Persistent cough: is it asthma?, 411
- persistent hyperinsulinaemic hypoglycaemia of infancy**, Histochemical, clinical, and in vitro β cell responses in a neonate with persistent hyperinsulinaemic hypoglycaemia of infancy, F141
Long term follow up of persistent hyperinsulinaemic hypoglycaemia of infancy, 440
Pancreatic exocrine and endocrine function after pancreatectomy for persistent hyperinsulinaemic hypoglycaemia of infancy, 435

- physical disability**, Transition from school to adult life for physically disabled young people, 306
- positron emission tomography**, Neuroimaging and spectroscopy in children with epileptic encephalopathies, 39
- Positron emission tomography in paediatric cardiology: *current topic*, 520
- postal reminders**, Randomised controlled trial of the use of a modified postal reminder card on the uptake of measles vaccination, 136
- prediction**, Artificial neural network for risk assessment in preterm neonates, F129
- pre-eclampsia**, Maternal hypertension and neurodevelopmental outcome in very preterm infants, F88
- pregnancy**, Neurobehaviour of school age children born to diabetic mothers, F94
- premature thelarche**, Outcome of premature thelarche: relation to puberty and final height, 173
- prenatal factors**, Attention deficit disorder with developmental coordination disorders, 207
- prepubertal children**, Vitamin D receptor alleles predict growth and bone density in girls, 488
- prescribing errors**, Errors by paediatric residents in calculating drug doses, 56
- pressure limited ventilation**, Volume controlled and time cycled pressure limited ventilation: *letter*, F79
- preterm**, Outcome of very preterm birth: children reviewed with ease at 2 years differ from those followed up with difficulty, F83
- prevalence**, A population study of chromosome 22q11 deletions in infancy, 348
- Outcome of very preterm birth: children reviewed with ease at 2 years differ from those followed up with difficulty, F83
- prevention**, Systematic review and meta-analysis of early postnatal dexamethasone for prevention of chronic lung disease, F26
- primary pulmonary hypertension**, Primary pulmonary hypertension in childhood: *current topic*, 452
- prone sleeping position**, Living at high altitude and risk of sudden infant death syndrome, 506
- prophylaxis**, Double blind, randomised, placebo controlled study of oral vancomycin in prevention of necrotising enterocolitis in preterm, very low birthweight infants, F105
- Prevention of early onset group B streptococcal infection: screen, treat, or observe?: *annotation*, F81
- prostacyclin**, Primary pulmonary hypertension in childhood: *current topic*, 452
- psychomotor retardation**, Melatonin treatment in an institutionalised child with psychomotor retardation and an irregular sleep-wake pattern, 63
- psychosocial short stature**, Metaphyseal growth arrest lines in psychosocial short stature, 260
- puberty**, Outcome of premature thelarche: relation to puberty and final height, 173
- pulmonary disease**, Complications of modified Blalock-Taussig shunts mimicking pulmonary disease, 361
- pulmonary surfactant**, Effect of vitamin K1 on glucose-6-phosphate dehydrogenase deficient neonatal erythrocytes in vitro: *editorial*, F218
- pyloric stenosis**, Post-pyloromyotomy emesis caused by concomitant urinary tract infection in pyloric stenosis patients: *letter*, 201
- quality of care**, An audit of paediatric epilepsy care, 145
- questionnaire**, Parental view of epilepsy in Angelman syndrome: a questionnaire study, 423
- radiotherapy**, Height and weight pattern up to 20 years after treatment for acute lymphoblastic leukaemia, 161
- Long term follow up of 69 patients treated for optic pathway tumours before the chemotherapy era, 334
- randomised control trial**, A randomised, placebo controlled trial of inhaled salbutamol and beclomethasone for recurrent cough, 6
- A review of randomised controlled trials published in *Archives of Disease in Childhood* from 1982-96, 192
- Informed consent, parental awareness, and reasons for participating in a randomised controlled study, 120
- Randomised controlled trial of aminophylline for severe acute asthma, 405
- Randomised controlled trial of biofeedback training in persistent encopresis with anismus, 131
- Randomised controlled trial of brief neonatal exposure to cows' milk on the development of atopy, 126
- Randomised controlled trial of the use of a modified postal reminder card on the uptake of measles vaccination, 136
- Systematic review and meta-analysis of early postnatal dexamethasone for prevention of chronic lung disease, F26
- Treatment of acute asthmatic exacerbations with an increased dose of inhaled steroid, 12
- recombinant human growth hormone**, Randomised controlled trial of recombinant human growth hormone in prepubertal and pubertal renal transplant recipients, 481
- rectal biopsy**, Rectal biopsy in the investigation of constipation, 266
- reduced osmolality**, Management of acute diarrhoea with low osmolality oral rehydration solutions and *Lactobacillus* strain GG, 157
- reference prediction equation**, Prediction of lung function in the inadequately nourished, 18
- registers**, Compiling a national register of babies born with anophthalmia/microphthalmia in England 1988-94, F168
- Epidemiology of cerebral palsy in England and Scotland, 1984-9, F21
- rehydration**, Guidelines for managing acute gastroenteritis based on a systematic review of published research: *review*, 279
- renal function**, Randomised controlled trial of recombinant human growth hormone in prepubertal and pubertal renal transplant recipients, 481
- renal transplantation**, Randomised controlled trial of recombinant human growth hormone in prepubertal and pubertal renal transplant recipients, 481
- research**, The objectives of medical research: *letter*, F159
- residents**, Errors by paediatric residents in calculating drug doses, 56
- respiratory distress syndrome**, Randomised trial of elective continuous positive airway pressure (CPAP) compared with rescue CPAP after extubation, F58
- respiratory failure**, The role of negative pressure ventilation: *letter*, 94
- respiratory function**, Distinct patterns of respiratory difficulty in young children with achondroplasia: a clinical, sleep, and lung function study, 99
- respiratory tract infections**, Systematic review of the treatment of upper respiratory tract infection, 225
- restriction fragment length polymorphism**, X linked lymphoproliferative disease in a United Kingdom family, 52
- resuscitation**, Albumin: saint or sinner?: *annotation*, 384
- Reye syndrome**, Screening for medium chain acyl-CoA dehydrogenase deficiency using electrospray ionisation tandem mass spectrometry, 109
- risk factors**, Case-control study of current validity of previously described risk factors for SIDS in the Netherlands, 386
- Heavy caffeine consumption in pregnancy, smoking, and sudden infant death syndrome: *letter*, 291
- routine data**, Child health statistics review, 1998: *review*, 523
- rubella vaccine**, A retrospective cohort study of risk factors for missing preschool booster immunisation, 141
- S pneumoniae**, Placental antibody transfer: influence of maternal HIV infection and placental malaria, F202
- salbutamol**, Randomised crossover trial of salbutamol aerosol delivered by metered dose inhaler, jet nebuliser, and ultrasonic nebuliser in chronic lung disease, F100
- scalded skin syndrome**, Superantigen scalded skin syndromes: *letter*, 290
- school achievement**, Cognitive, educational, and behavioural outcomes at 7 to 8 years in a national very low birthweight cohort, F12
- school age children**, Neurobehaviour of school age children born to diabetic mothers, F94
- Scotland**, Epidemiology of cerebral palsy in England and Scotland, 1984-9, F21
- screening**, Costing model for neonatal screening and diagnosis of haemoglobinopathies, F161
